

# ABOUT THE GARDEN

In 2003 the Hart County Board of Commissioners agreed to a 20 year land lease for the development of a botanical garden. The garden was designed by the University of Georgia environmental design graduate students under the direction of Northeast Georgia Master Gardeners. The 7 acre area is mostly wooded and now features 17 specialty gardens that are organized along walking trails.

Other features in the garden include a pavilion, amphitheater, children's play structure, picnic tables, several arbors, a Little Free Library, geocaches, a bird sanctuary, benches and fountains. The pavilion and amphitheater can be reserved for private events. Commemorative trees and bricks are available. The garden is maintained by volunteers and funded solely by memberships, donations and fundraisers.
